10 March 2017

Dear Mrs Watkiss

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 12 patient questionnaires in February 2017.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=200348>

Please contact the office on 01392 823766 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	10	91%
Passive	Likely	1	9%
Detractors	Neither likely nor unlikely	0	0%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		11	100%

* May not add up to 100% due to rounding

Number of patients who left Q1 blank (but provided other feedback on the questionnaire)	1
Total number of patients providing feedback	12

Graph 1

100% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 11 patients who answered the Friends and Family Test question, 11 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- Couldn't get better treatment, always get an appointment when needed urgently.
- I've always received good caring treatment here, although luckily I haven't had to visit very often. So have my daughter and partner.
- Friendly efficient service.
- Receptionists very professional - never query whether you need to see the doctor. Such a bonus seeing the same doctor. Over the many years I feel we have built a relationship.
- Great reception staff, wonderful GP care. Very disciplined timekeeping - not for everyone it is for me.
- One of the doctors is exceptional. Doctor, who does not refer immediately to medication for anxiety/depression, he listens and encourages self-help and intervention. He's an exemplary example of doctor care. Thank you to this doctor and NHS.
- Close, good GP, personally helped me.
- Because you are good.
- Nice efficient helpful staff.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
