Dear Ms Watkiss

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 23 patient questionnaires in February 2018.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=218583>

Please contact the office on 01392 823766 or [reports@cfepsurveys.co.uk](mailto:reports@cfepsurveys.co.uk) if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Frequency and distribution of ratings for the Friends and Family Test question

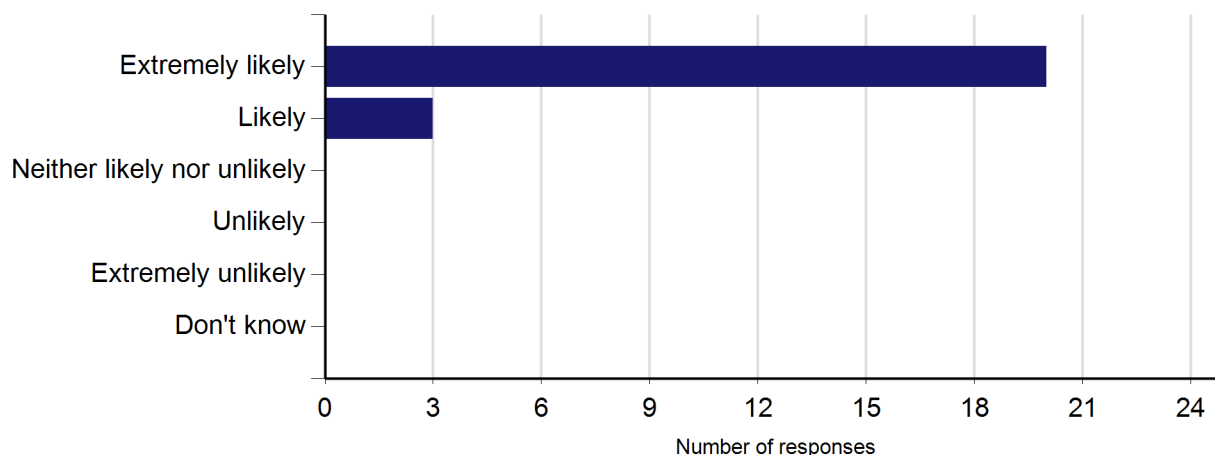

**How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?**

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	20	87%
Passive	Likely	3	13%
Detractors	Neither likely nor unlikely	0	0%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		23	100%

\* May not add up to 100% due to rounding

Graph 1

**100% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.**

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

**Of those 23 patients who answered the Friends and Family Test question, 23 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.**

## Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

### Please tell us why you answered as you did in question 1:

- Reception staff are very friendly and helpful. They do not put up barriers when requesting a doctor appointment. The doctor always listens. Again no barriers to referral, etc.
- Not an expert but find practice very efficiently run.
- The general atmosphere and professionalism of the staff impresses me. I have great confidence in my doctor.
- We (I) have always had the best of treatment and consideration any time I attended. When one problem kept occurring over a couple of years at no time did the doctor treat me as if I was faking it. The above applies equally to the practice nursing staff as well.
- Good practice. Competent doctors.
- So impressed with speed and quality of service also brilliant having such personal service - I always see the same doctor.
- Been satisfied with treatment and responses as far as I can remember!
- Very understanding, helpful, sympathetic and patient.
- The professionalism is very good here. The staff are respectful.
- Good service, no waiting.
- Because I'm pleased with GP.

Please tell us why you answered as you did in question 1:

- I feel that the size of the practice means that I have continuity of relationship and therefore better service as I almost always see the same doctor. Also on one emergency occasion arrangements were made for me to visit and see the other doctor within one hour. Excellent flexibility.
- Reliable.
- I am a carer and have always recommended to our service users because they are very reliable.
- They gave clear explanation in all aspects when I asked about my health situations.
- Very good doctor very caring and helpful.
- The courtesy from the reception, the clean and welcoming environment and the very personable doctor.
- I've never had any problems here. I've always experienced helpful and professional staff and medical attention I felt confident in.
- Staff so friendly.
- Best doctors practice I have ever been to always given an appointment.
- Been a patient here for years and always had excellent care and service.

### Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
