Dear Mrs Watkiss

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 6 patient questionnaires in July 2017.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=203890>

Please contact the office on 01392 823766 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	4	67%
Passive	Likely	0	0%
Detractors	Neither likely nor unlikely	1	17%
	Unlikely	0	0%
	Extremely unlikely	1	17%
	Don't know	0	0%
Total responses to this question		6	101%

* May not add up to 100% due to rounding

Graph 1

67% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 6 patients who answered the Friends and Family Test question, 6 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- It's a nice surgery with helpful and friendly staff (both doctor and administration team). I get appointments quite promptly.
- Based on my recent attempt to book an appointment to see a doctor I would not be likely to recommend the practice. I was unable to make an appointment to a doctor with free appointments and told I could only see my registered doctor. Why? This makes no sense to a patient of the surgery.
- Excellent service - easy to get appointments. Friendly and helpful staff.
- Prescribed blood thinner a week before surgery by my GP who knew I was having an operation. Common answer: book another appointment when still five minutes left on the current. Never follow up on issues from previous visits. Does not saw enough care for patients - one doctor.
- The care I receive is second to none. Doctor is always extremely thorough and always listens. Nurses and reception staff always extremely helpful and friendly. A big gold star for the practice.
- Sherrington Park: I've been here for many years, never had to wait long to get an appointment. Always seen on time, one doctor was a good doctor and will sadly be missed.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
