Dear Ms Soubry

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 6 patient questionnaires in July 2018.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=218588>

Please contact the office on 01392 927005 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

| Criteria category for scoring | Response scale | Number of responses | Percentage of responses* |
|----------------------------------|-----------------------------|---------------------|--------------------------|
| Promoters | Extremely likely | 4 | 67% |
| Passive | Likely | 2 | 33% |
| Detractors | Neither likely nor unlikely | 0 | 0% |
| | Unlikely | 0 | 0% |
| | Extremely unlikely | 0 | 0% |
| | Don't know | 0 | 0% |
| Total responses to this question | | 6 | 100% |

* May not add up to 100% due to rounding

Graph 1

100% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 6 patients who answered the Friends and Family Test question, 6 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
