Dear Ms Soubry

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 11 patient questionnaires in March 2018.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=218584>

Please contact the office on 01392 823766 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	8	73%
Passive	Likely	1	9%
Detractors	Neither likely nor unlikely	2	18%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		11	100%

* May not add up to 100% due to rounding

Graph 1

82% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 11 patients who answered the Friends and Family Test question, 11 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- Can usually get an appointment really quickly. All doctors and nurses very friendly and helpful.
- Fast, efficient response to need for appointment. One of the doctors in particular is a very good listener and knows my medical history. This doctor is quick to grasp what treatment to try next. Always friendly and open to comments. Asks just the right questions to take me forward.
- From my own experience I have always been treated well and with respect and have felt I can approach the practice about anything. Quality of care very good.
- Very difficult to get an appointment.
- Caring staff. Easy to have GP appointment. Effective communication.
- I always feel listened to and all the staff are friendly and polite.
- Seems like a very friendly and helpful clinic and was made to feel welcome.
- Pleasant staff. On time. Comfortable surroundings. Good communication.
- My general feelings are overall very positive.
- One of the doctors in particular is a fantastic doctor - a great asset to the practice.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
