12 December 2018

Dear Ms Soubry

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 29 patient questionnaires in November 2018.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=218592>

Please contact the office on 01392 927005 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

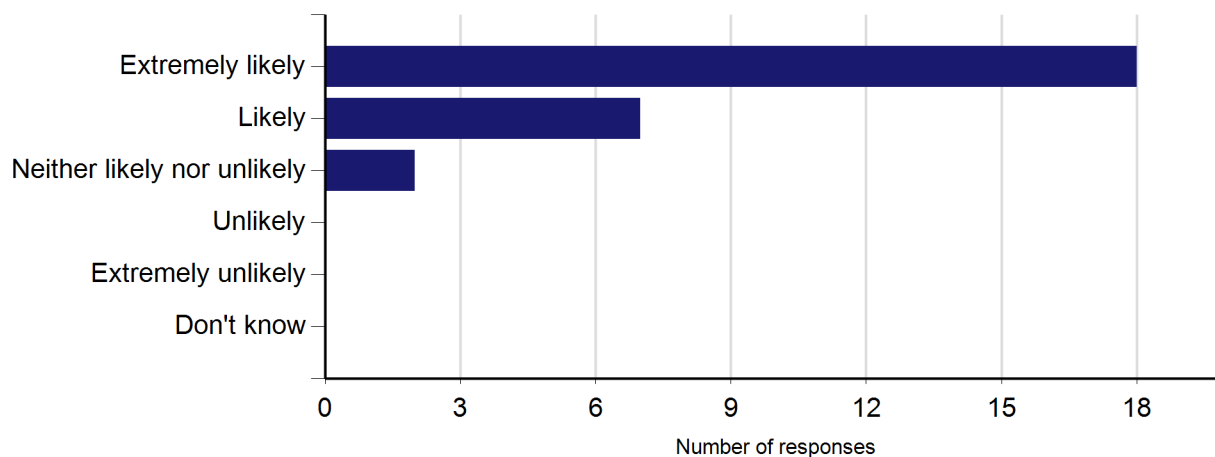

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	18	67%
Passive	Likely	7	26%
Detractors	Neither likely nor unlikely	2	7%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	0	0%
Total responses to this question		27	100%

* May not add up to 100% due to rounding

Number of patients who left Q1 blank (but provided other feedback on the questionnaire)	2
Total number of patients providing feedback	29

Graph 1

93% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 27 patients who answered the Friends and Family Test question, 27 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- Helpful staff when phoning. I like my new GP - albeit only met them once.
- I am always able to get an appointment.
- Really happy with the treatment I've had. One doctor is lovely and very thorough. My experience with the nurse was great too. I've always had a good experience booking appointments too.
- The service is fantastic.
- Lovely staff.
- Great staff, reception are amazing. One receptionist goes above and beyond always.
- Efficient, friendly, very responsive.
- Always been a very good and friendly practice.
- Never had a problem. Good appointment times.
- I've been at Sherrington Park for many years and have always received quality care and advice.
- Really good empathetic doctor. Feels like a personal and supportive service.
- Always been provided good service by doctor and reception staff.
- Quick to get appointments, care of ongoing conditions managed well.
- Very quick to see a doctor if needed.

Please tell us why you answered as you did in question 1:

- Always good care. Just wanted to question the logic of putting the health visitor upstairs. It made it very awkward with my children.
- Polite staff. Appointments system good.
- I can get an appointment relatively easily. Good communication on appointments.
- Have always found one doctor and the staff very caring, helpful and polite. Doctor goes far above just doing the basics of caring for the health of their patients.
- Two of the doctors are beyond amazing. We need to move practice - however wanted to say how much we appreciate the care we have received. A brilliant practice!

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
